

TCM Forklift Part

TCM Forklift Parts - In the international industry of material handling, lift trucks play a major role for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity following World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM began constructing lift truck manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

With over fifty years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial lift trucks, making their models known all around the globe. With a strong and energetic workers, TCM has been able to constantly work towards becoming a future leading material handling business.
